Web/Application Developer with 3 years' experience in both enterprise SAP and full stack web development, now pursuing a M.Sc. in Systems Engineering for IoT at UCL. Shipped RTL enablement and 240+ Carbon Design System v2 migrations for IBM.com, automated support workflows, and delivered production-grade university portals. Passionate about building automation tools to improve developer productivity and system efficiency.

CORE SKILLS

- **Languages/Frameworks:** JavaScript, Java, PHP, Node.js, Flutter, Python, HTML, CSS, JSON, XML, jQuery
- **Platforms:** AEM Sites, Sling, OSGi, AWS, GCP KMS
- **Data:** Firebase, MySQL, MongoDB
- **Tools/Libraries/Devices:** REST APIs, React, GitHub, Google Tink, Arduino, Raspberry Pi

EXPERIENCE

IBM India Private Limited - AEM Sites Application Developer

Duration: November 2023 to July 2025

Tech-stack: AEM Cloud, Java, Node.js, HTML, CSS, JavaScript, GitHub, Python

Client: IBM.com

- Led roughly 50% of all RTL enablement code changes for IBM.com in a 3-person team, and proposed alternative component implementations to de-risk project timelines.
- Built a Node.js tool to map dependencies across 240+ AEM components, cutting issue-triage time by 70%; complemented with Python automation that reduced planning by 1 week.
- Led Carbon Design System v2 UI modernization for an 8-person team; mentored developers in CSS/Sass and unblocked three complex UI components.
- Published an AEM URL Switcher Chrome extension to compare the same page across multiple environments/versions, accelerating multi-environment testing.
- Customized three AEM Commons DAM asset reports with dynamic parameters to support Adobe Cloud content operations.

IBM India Private Limited - SAP BI AMS BW Consultant

Duration: September 2022 to October 2023

Tech-stack: SAP BW, Python

Client: Volkswagen Financial Services

- Cut average incident first-response time by 80% by introducing Python script automation.
- Identified a pattern of recurring issues and proactively escalated it, creating an 8-hour mitigation window that prevented a major P1 incident.
- Reduced average ticket closure time by more than 24 hours.

College of Engineering - Guindy - Full Stack Developer Intern

Duration: July 2022 to August 2022

Tech-stack: PHP, MySQL, HTML, CSS, JavaScript

Client: Center for Academic Courses, Anna University

- Digitized affiliated college fee records and enabled self-service status checks, with options to export data to Excel/PDF.
- Developed a PDF Generator tool to template official letters, reducing manual work and errors by 90%, and transferred know-how to staff for adoption.

IBM India Private Limited - Associate Application Developer Intern

Duration: January 2022 to June 2022

Tech-stack: SAP S/4 HANA 2.0

- Completed SAP S/4 HANA 2.0 certification and gained exposure to a full project lifecycle.

Rishabh Software Private Limited, Vadodara – Machine Learning Intern Duration: January 2020 to June 2020

Tech-stack: PHP, MySQL, HTML, CSS, JavaScript, Keras, Tensorflow

- Built a Time & Expense Tracker application and prototyped a machine-learning model on Identification of Intoxicated Faces.

SELECTED PROJECTS

- **Low-Cost Automation of Existing Electric Devices (MycroLinks):** Flutter, Dart, Firebase, Arduino - Mobile app + NodeMCU (ESP8266) with real-time control and state sync.
- **Fingerprint Attendance Management System:** Java Web, Python, Raspberry Pi, Arduino, MySQL, JS/CSS - Distributed biometric devices with central admin portal; CSV/Excel exports and audit logs.
- **Event Enrolment & Online Payments (Deepwoods MCC):** PHP, MySQL, InstaMojo, jQuery, SEO, Bootstrap - Enrolment, ticketing, and payment confirmations with dashboard and exports.
- **Android Password Manager:** Android, Google Tink, GCP KMS, Node REST API, Firebase - On-device encryption with cloud-managed keys; Secure credential sync.
- **Classroom Assignment Evaluator:** Flutter, Firebase - Gemini-based LLM for automated assignment evaluation and feedback using teacher-defined criteria.

EDUCATION

M.Sc Systems Engineering for the Internet of Things

Expected 2026

University College London

Major: Designing Sensor Systems, Real-World Multi-agent Systems

Master of Computer Application

2022

Anna University, College of Engineering – Guindy | CGPA: 8.5 | First Class with Distinction and Honors

Major: Cyber Security and Internet of Things | Minor: Advanced Java, Machine Learning

Bachelor of Computer Application

2020

Maharaja Sayajirao University of Baroda | CGPA: 7.5 | First Class with Distinction and Honors

Major: Advanced Java, Machine Learning | Minor: Android Development, Networking

LEADERSHIP & VOLUNTEERING

- **Volunteer Youth Mentor – Crossroads (2024):** Co-led weekly teen sessions, designing activities that build communication and conflict-resolution skills while maintaining a safe, respectful environment. Followed safeguarding procedures, kept matters confidential, and sign-posted students to appropriate support.
- **MCA Class Representative, Anna University (2020-2022):** Elected cohort liaison; ran quick pulse-checks to surface concerns, presented consolidated feedback and solutions to faculty, mediated timetable/assessment conflicts, and ensured updates and actions were communicated and closed.

CREDENTIALS

- AWS Certified Cloud Practitioner
 - Adobe Certified Expert - Adobe Experience Manager Sites Developer
 - Adobe Certified Professional - Adobe Experience Manager Forms Backend Developer
 - SAP Certified Development Specialist - ABAP for SAP HANA 2.0
- 15+ additional Adobe, IBM, and Credly-verified certifications (full list on request)

ADDITIONAL

Interests: Weight Training, Guitar, Trekking, Swimming, Cycling, Marathon Running

Languages: English (IELTS 8.0), Tamil (native), Hindi (fluent)

Referees: Available on request
